

MSL Engineering Ltd

MSL Engineering Ltd. is a mechanical engineering contractor dedicated to delivering a service that incorporates the highest standards of workmanship, safety, quality and reliability.

MSL Engineering Ltd. has a record of over 35 years of excellence in mechanical engineering. We deliver mission critical projects to some of the world's leading companies, including Pfizer, GlaxoSmithKline, Eli Lilly, Alexion, Mallinckrodt, Bristol-Myers Squibb, Stryker, Glanbia, Pernod Ricard, Phillips66, BGE, ESB and GE.

Currently operating across Ireland, UK, Belgium and The Netherlands, MSL Engineering Ltd.

Specialize in

- Fabrication, installation, testing and commissioning of process, utilities, and high purity pipework
- Modular fabrication and assemblies
- Process and heavy equipment installation
- Fabrication and installation of platforms and steelwork
- Managing multi-discipline sub contractors as part of our projects including HVAC, scaffold, craneage, insulation, painting, NDT etc.
- Use of BIM and 3D modelling processes

At our Watergrasshill facility, MSL Engineering Ltd. has recently added 5,000sq. ft. to our clean piping fabrication facility

complete with a 1,500sq.ft. clean room for orbital welding in a temperature controlled clean environment.

MSL's business encompasses one-off construction contracts in addition to ongoing maintenance and term service contracts across many industry sectors such as

- BioPharma
- Food & Beverage
- Oil & Gas
- Chemical
- Pharmaceutical
- Medical Devices
- Power & Utilities
- Data Centres

The ability to deliver quality, timely projects and responsive maintenance, has seen MSL regarded by its clients as an integral link in their supply chain. This reputation is vital to the company's ongoing success.

With

- Over 160 staff
- 22,000sq.ft. of modern fabrication facilities
- An ISO9001:2008 accredited Quality Management System
- A Safe-T-Cert accredited Safety Management System

We continue to challenge ourselves at MSL to deliver the highest standard of service that is deserved and expected by our clients.
